In the Mineralogical Museum in Szklarska Poręba, you can see nearly 4000 exhibits: minerals and fossils from around the world, as well as one exhibit from space – the Gibeon meteorite. In front of the museum, there is "CARBONIFEROUS FOREST" (the only one in Europe). There are fossilized trunks of the Dadoxylon tree, which grew here about 300 million years ago. A separate section of the museum is characterized by fossils and skeletons of dinosaurs. This is Poland's largest private collection of reptiles from before millions of years and an exhibition of models of retro cars "From the first automotive to the present day". The Museum has a regional souvenir shop, minerals and jewelry.

Opening hours:
During the season, it is open every day from 10:00 to 18:00 off-season from Tuesday to Sunday from 10:00 to 18:00. Mondays closed

The Sentiment Museum is an unusual place, as well as its name. Why? Because it collects not only objects from a bygone, so close to us epoch, but also non-material objects, i.e. memories and sentiments. Go back in time by 20-30 years and recall the objects known to you from your grandmother's kitchen, your parents' living room, your own room or from the...

This is the only place in the south of Poland where you can see the world reversed by 171 degrees in a Cottage on your head! You enter the building through the gable window and walk on the ceiling. The Upside down Cottage is completely furnished and equipped with everyday items... An additional attraction is a gravitational cottage, which will provide you with an amazing experience. You go inside, sit comfortably and suddenly ... the house starts to whirl around you!

Or maybe it is you who is spinning? Come and see for yourself.
